

**HONDA**  
The Power of Dreams

# Honda SD Navigation System

# Europe now fits nicely into your Honda

The Honda SD Navigation system is an elegantly crafted but incredibly powerful piece of kit that offers all the essentials of modern driving convenience.

## Intuitive Touch Screen

A 6.1 WVGA Touchscreen features multi-sensor navigation (GPS / Gyro / Speed Pulse) to perfectly pinpoint your position even when you're in a tunnel, map coverage for 34 EU countries all updatable via SD card, and Voice Commands and Menus available in 12 languages.

## Connectivity

Then there's Bluetooth HFT, with integrated microphone and audio streaming, optional AUX in and USB as well as iPod, iPhone and tablet connectivity. Play CD's or compressed audio streamed from your devices in real time, with track listings, playlists and album artwork displayed on screen.

Lane Assist & Junction View so you'll know in plenty of time which lane to use for the next turn.

The clean and intuitive display means you can stay focused on the road at all times.

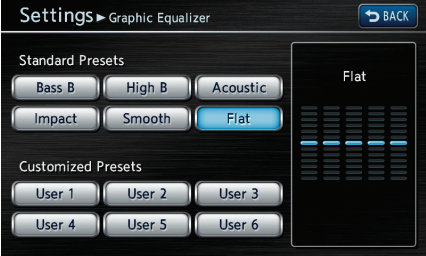

## Clever Integration

Vivid, even in direct sunlight, the touchscreen is designed to be fast and intuitive so you can concentrate on driving. The system communicates with the Intelligent Multi Display (if that's a feature on your Honda) and you can operate it from your steering wheel, so you're really in safe hands.

## Sound Quality

If you think that sounds good, just listen to the HiFi detail. The SD Navigation system features a 4X45 W amplifier for clear, rich audio, not to mention a 5-band graphic equalizer with 6 pre-set and 6 personal EQ curves to make your music, and your phone calls, really sparkle.

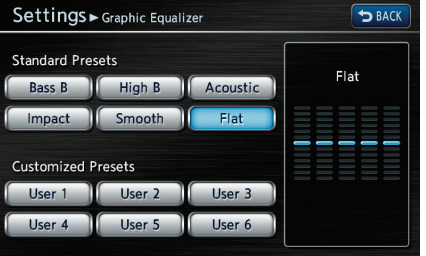

Transfer up to 300 contacts from 5 phones to your sat-nav system then dial them directly.

Listen to audio from lots of different sources and control your iPod/iPhone from the touch screen.

Map POIs with a phone number (e.g. restaurants) can be dialled with a touch of the screen.

The 5-band graphic equalizer with custom pre-sets makes your music really come to life.

These specification details do not apply to any particular product which is supplied or offered for sale. The manufacturers reserve the right to vary their specifications, including colour, with or without notice and at such times in such manner as they think fit. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. This publication shall not constitute in any circumstances whatsoever an offer by the Company to any person. All sales are made by the Distributor or Dealer concerned subject to and with the benefit of the standard Conditions of Sales and Warranty given by the Distributor or Dealer, copies of which may be obtained from him/her on request. Whilst efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specification details with the supplying Dealer or Distributor, especially if your model selection is dependent upon one of the features advertised.
